U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On March 16, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
March 17 - 25, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on release of March 27, 1975 (based on reports from exporters during the week ending March 16, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 declined by 72,200 metric tons (MT). Commitments to the European Community (EC) fell by 124,200 MT, the third consecutive weekly decline; while commitments to Morocco declined by 138,400 MT and those to unknown destinations by 282,000 MT. Partly offsetting those declines, commitments to Pakistan, Taiwan, and Japan increased by 256,800 MT, 77,000 MT, and 75,300 MT, respectively.

For 1975/76 shipment, the commitment to India has increased by 101,600 MT, bringing the total commitment to that country for next season to 1.25 million MT.

Feedgrains: The apparent export commitment for 1974/75 dropped by 1,247,800 MT. The total corn commitment fell by 1,139,100 MT, largely because of a decrease in the commitments to the EC of 805,400 MT (655,400 MT of that decline being to West Germany), and to Poland and the Republic of Korea, which fell by 128,800 M.T. and 134,300 MT, respectively. Sorghum commitments declined by 129,400 MT, largely on the basis of a 76,400 MT lower commitment to Japan. In view of USDA's official projections of feed grain exports at 33.7 million M.T. in 1974-75, compared with apparent export commitments of 40.8 million M.T., further contract cancellations or deferrals to 1975-76 delivery are expected.

Rice: The apparent export commitment for 1974/75 rose by 26,400 MT, with an increase in the commitment of 34,500 MT to Bangladesh the only major change.

Soybeans: The apparent export commitment for 1974/75 declined by 222,000 MT, primarily to EC and unknown destinations. Shipments of 228,000 MT brought the annual unadjusted rate of exports to 13.8 million MT during the first 28 weeks of the season. Futures prices on the Chicago Board of Trade rallied during the past week when traders learned that stocks held by domestic mills at the end of February totaled 72.2 million bushels, down about 11 million from the previous month. A smaller decline had been anticipated.

Soybean Meal: The apparent export commitment declined by 243,000 MT, primarily to EC destinations (down 145,000 MT), Romania (down 48,000 MT), and Poland (down 35,000 MT). Shipments of 68,800 MT maintained the annual unadjusted rate of exports at 4.3 million MT.

Soybean Oil: Shipments during the week were less than 1,000 MT but futures prices advanced in anticipation of increased domestic and export demand.

Cotton: Exports and new sales to the Far East were the main features during the week. Led by shipments of 22,000 running bales (RB) to the People's Republic of China, Far East destinations accounted for 77 percent of the 89,000 RB exported. Takings by Korea, Japan, and Taiwan exceeded 12,000 RB each. Net new sales were split about evenly between 1974/75 (40,000 RB) and 1975/76 (42,000 RB) delivery. Japan accounted for the largest increase for both years, followed by Korea. Net new sales for 1974/75 delivery were mostly between 1" and 1-1/16" while activity for 1975/76 concentrated on staples above 1-1/16". Total exports through March 16 were 64 percent of USDA's projected 1974/75 shipments. Extra long staple exports during the week were 700 bales, leaving outstanding 1974/75 sales at two-thirds of the 15,700 RB commitment.
